

Name _____ Quiz Date _____ Due Date _____

10.2 - Guide

Key Issue: _____

The mechanized, highly _____ American or Canadian farm contrasts with the _____ farm found in much of the world. The most "typical" human-if there is such a person-is an _____ farmer who grows enough food to _____, with little surplus.

Factors in variation of diet

level of development →

physical conditions →

cultural preferences →

Define **dietary energy consumption**. (Requires Sentence)

Define **cereal grain**. (Requires Sentence)

The three leading cereal grains - (1) _____, (2) _____,
(3) _____ - together account for nearly _____ % of all grain
production and more than _____ % of all dietary energy consumed worldwide.

Using the numbered answers from the previous question, complete the following chart.

Type of cereal grain → explanation
(1)
(2)
(3)

What are the major crop types of sub-Saharan Africa? (Simple List)

What is the leading source of dietary energy in Venezuela? (Simple List)

Complete the following chart using figure

Highlight the MDCs

State	Dietary Energy by Source Type	Protein by Source % of Diet	Protein from Meat % of Diet
Bangladesh			
Canada			
China			
Ecuador			
Ethiopia			
Finland			
Guyana			
India			
Indonesia			
Italy			
Japan			
Mexico			
North Korea			
Papua New Guinea			
Russia			
South Korea			
Sudan			
Turkey			
United States			
Zimbabwe			

Protein Sources

Developed States (MDC) →

Developing States (LDC) →

Define **food security**. (Requires Sentence)

Compare and contrast the dietary energy consumption between developed and developing states.
(Requires Paragraph)

Define **undernourishment**. (Requires Sentence)

The UN estimates that _____ people in the world are undernourished; _____ % of the world's undernourished people are in developing countries. _____ has by far the largest number of undernourished people, 225 million, followed by _____, with 130 million.

The next three answers are listed in the book as fractions. Please convert them to percentages.

_____ % of the population in sub-Saharan Africa, _____ % in South Asia, and _____ % in all developing countries are classified as undernourished.

Using the above information and figure 10-15, explain why China has the second highest number of malnourished people, yet is ranked third in percentage. (Requires Sentence)

KEY ISSUE CHECK IN (May write word for word)

Key Issue: _____

Check-In Statements _____

Locate the following states.

State	Region	Relative Location
Algeria		
Argentina		
Chad		
Ecuador		
Ethiopia		
Finland		
Germany		
Guatemala		
India		
Iran		

Locate the following states.

State	Region	Relative Location
Kenya		
Laos		
Mexico		
Pakistan		
Peru		
Saudi Arabia		
Spain		
Sweden		
Syria		
Yemen
